

MarcM Consulting Canada

is founded on the principle that good regulatory management is the key to success in business relations between local and foreign partners and governments.

"Bringing the Americas Closer Together"

Regulatory Affairs Consultants

MarcM Consulting Canada can support all of your regulatory and associated needs with:

- regulatory guidance and industry expertise in medical devices, pharmaceuticals, veterinary medicines, cosmetics, natural health products, over-the-counter (OTC) wares and related ingredients & additives;
- regulatory compliance services throughout the Americas, from South to North;
- regulatory preparation for qualification as a supplier to international health bodies including PAHO, UNICEF, WHO and others;
- regulatory training in areas such as product registration, quality assurance, good manufacturing practices (GMP) and international harmonization;

And:

- help in growing your company internationally via customized business development services provided as an adjunct to the comprehensive regulatory and quality assurance services noted above.

Contact us or visit our website to explore the numerous opportunities that **MarcM Consulting Canada** can bring to your company. We look forward to serving you!
